BCG FEMALE MENTORSHIP WOMENTORING

Our new female mentorship program is set up to support you and identify career options at an early stage of your studies. It is designed as an interactive and continuous partnership that adapts to your personal ideas and needs. A flexible mentorship agenda offers you regular one-on-one meetings, lunches or special activities to deepen the relationship between you and your mentor as well as reach your goals and guarantee success.

Your BCG mentor has two to four years of work experience and will guide you through challenging situations and decisions.

In addition, you will benefit from invitations to special BCG events and trainings, plus receive career advice from one of our Principals or Partners.

Interested in becoming one of our first female mentees? Then state your motivation in your cover letter and send your full application to:
sui-mentoring@bcg.com

Please note that this is a year-round program.
The application deadline for our first wave is May 25, 2017.

This program is designed for young female university students from the fifth semester and above (Bachelor's, Master's or Phd), with analytical interest, insatiable curiosity and interpersonal skills.

We look forward to your application.
